~~CONFIDENTIAL~~

DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-769

3 1 DEC 1979

MEMORANDUM FOR: Members, DCI Security Committee
                  Chairmen, SECOM Subcommittees

FROM: Robert W. Gambino
                  Chairman

SUBJECT: Revision of DCID 1/11

REFERENCE: My memorandum SECOM-D-693 dated 19 Oct 1979

    1. Referenced memorandum circulated a second draft revision of DCID 1/11. All addressees except CIA and NSA concurred. CIA comments have been accommodated. NSA views have either been accommodated or dealt with as stated below.

    2. NSA recommended that paragraph 1.b of the draft be re-worded to have the committee's mission in the stated areas be performed "in concert with other DCI committees," so as to indicate a shared relationship with the SIGINT Committee and COMIREX. We believe that this committee's charter should only address what we are to do. The language in the draft revision is substantively identical to that in the current, published version of DCID 1/11. Nothing has come to our attention indicating that Committee action pursuant to the present language has caused any problems with other committees.

    3. NSA recommended several changes to attachment 3 to the draft DCID bearing on compartmentation functions. Since a decision by the President on the APEX system is imminent, we are deferring proposing any changes to the current charter of the Compartmentation Subcommittee pending

possible reassignments of responsibility for compartmentation matters. We recognize that it may also be necessary to change the compartmentation mission statement in the proposed revision of DCID 1/11 (Section 1.f)

    4. Addressees are requested to review the attached third draft revision of the DCID, and provide their views in writing to the Committee Executive Secretary by 15 January 1980. Please note in this regard that the compartmentation mission and functions of the Committee will have to be addressed separately and later.

25X1

    Robert W. Gambino

Attachment: Draft Revision of DCID 1/11
